

REINER

REINER 880

The REINER 880 electro-stamp combines modern design with outstanding functionality.

So easy to use; so fast to print; any stamping requirement is so readily accommodated, to speed your work flow!

And security is stressed: With chip-card and password protection.

The perfect combination of flexibility and security.

REINER 880

The multi-talented!

REINER 880

The REINER 880 is a multifunctional electro-stamp, with outstanding flexibility in many applications.

The advantages:

Maximises flexibility of uses

- The large textplate, 62 x 40mm, permits much engraving, eg. logos, validations and signatures
- Print lines with automatic numbering, date, time and selection of texts
- Print position is wide-ranging. You can print anywhere on an A4 document
- Quick, easy change of textplate
- 39 stored print combinations, for time, date and number
- Texts in 16 west and east european languages
- Simple menu selections, with the user friendly display
- Feed of documents is variable
- Triggering of the print action by pressure on the feed table, or by freely positionable trip-contact
- Adjustable character widths, from 16 to 35 characters per line
- Max. print width 60 mm
- Integrated chip-card reader

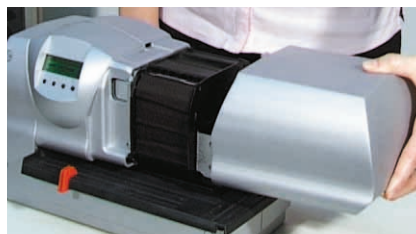

Options:

Chip-Cards

- Identification of the user by personal card
- Faulty chip-card locks the machine
- Chip-cards to store special texts

Click & Stamp Software

- For transfer of individual texts and data from PC to the REINER 880
